Work Experiences

PT Inti Utama Solusindo (Pharos Group) (Feb 2025 - Feb 2026)

Full Stack & DevSecOps Intern

- Designed the architecture for new services and web applications based on Clean Architecture and Domain-Driven Design (DDD) pattern best practices.
- Developed a Digital Imaging and Communications in Medicine (DICOM) service to track clinic ultrasound machine usage and automate the conversion of ultrasound results from DICOM files into images.
- Developed reusable Next.js and Flutter widgets (e.g., chat) by integrating Chatwoot as the base chat engine and Jitsi for video call integration.
- Set up and integrated Sentry with existing services and web applications for improved error monitoring
- Deployed the Evolution API for WhatsApp messaging automation and an SFTP server for file exchanges with external stakeholders.
